

# Google Site remote learning access for Nursery and Reception

In the event of a lockdown or a 'bubble' closure, children in Nursery and Reception have a dedicated link on the year group page on the Forest Park Primary School website [www.forestpark.org.uk](http://www.forestpark.org.uk)

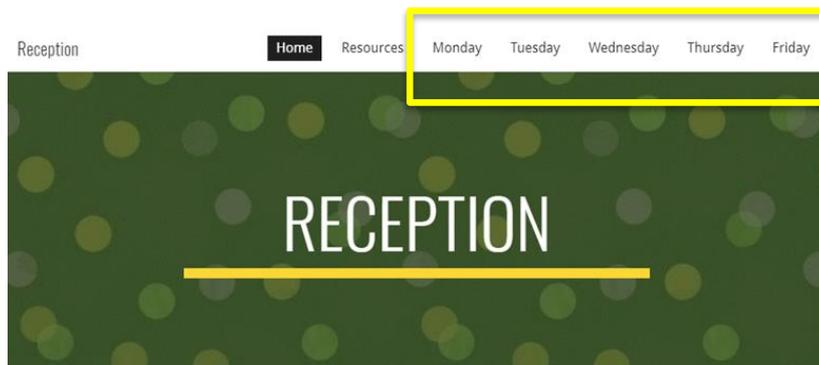

This link will take you to their dedicated year group Remote learning page. This link is accessible on a mobile phone, tablet or a computer.

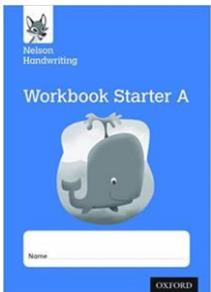

On the home page, you will find the year group expectations that relate to your child's learning and a timetable of activities that need to be completed each day.

Along the top right, you will find each day of the week. To access the daily work click on the corresponding day.

This page details all of the activities that your child needs to complete during the day. Support your child in using the page to access each activity. These are activities using quality videos and links selected by the teacher so you will need sound and be able to pause the videos if needed. It is important that all activities are completed.

If your child is in Reception, they will be sent home with a Nelson Handwriting book where they can practice their pencil control and letter formation. Read Write Inc. work can be completed in your child's Read Write Inc. book which will be sent home.

If you need any support throughout the day, please email the year group email and the teacher will contact you as soon as possible to support you.

At the end of each day, take a photograph of your child's work then email it to the year group email so the teacher can check the work completed and give your child any help or next steps.
