Arithmetic Practice

Follow the steps below to find the answers to the 'missing number' addition and subtraction sentences.

Remember the rhyme to help you.

Missing number at the beginning? Do the inverse and your winning (Remember 'Inverse' means the opposite).

Missing number in the middle? Do a subtraction to solve that riddle.

Missing number at the end? That's the way I like it friend.

a) $___ + 25 = 50$

b) $___ - 19 = 10$

c) $83 - ___ = 56$

d) $___ - 16 = 35$

Topic Review

In November, we were learning about animals including humans. Rewind your brains to answer these questions/complete the challenges:

1. Create your own exercise circuit made up of a variety of activities. Decide and write down how many of each activity you will do. For example: 5 star jumps, 10 push ups, 5 burpees, repeat 3 times.
2. Time yourself and other members of your family, who is the quickest? What is the quickest time you completed the circuit in?
3. Take your pulse before starting the exercises and again after you have completed your circuit. Did your pulse get quicker or slow down? Complete this sentence - The more exercise I do, the _____ my pulse gets.
4. Design a healthy meal for you and your family. Make a list of ingredients you will need and which food group they belong to. If you are allowed, make your meal and send a photograph to year2@forestpark.org.uk
