Then, put each of them into a sentence to show you understand their meaning.

Topic Review

We started year 6 by looking at **classification of living things**. Rewind your brain and see if you can solve these!

- 1) Define what invertebrate means.
- 2) Define what vertebrate means.
- 3) Give 5 examples of invertebrates and place them in their category.
- 4) Explain what class a whale is and why?
- 5) Draw a branching database just for the class mammals.

Challenge- can you draw a branching database for other objects in your house (just like we did with the sweets)

Use your knowledge organiser to help you.
